Name of Watershed: Lake Marion sub-watershed, Vermillion River Watershed

Watershed size (acres): 74.7 acres

Percent impervious surface in watershed: 17%

Ownership: City of Lakeville

Public Private

Inlet locations: west side (non-stormwater)

Outlet locations: southeast side

Is wetland included in the city's storm water management plan? Yes No

Does the city have a wetland management plan? Yes No

If yes, how is this wetland designated: Preserve

Wetland management goal: Actively protect and preserve function and values of wetland to maximum extent feasible.

Types of disturbances (current or future land use impacts): The wetland is in a residential neighborhood where development started in 2003 and ended 2008.

Physical Characteristics (landscape, habitat, significant features, etc.): A conservation easement of varying size is along all sides of this wetland. Buffer includes trees and shrubs.

BMPs in place: Wetland Management Plan; infiltration and ponding.

Concerns to note:

**Please return this form, directions to the site,
and an aerial map (if not previously submitted) by April 9, 2010 to:**

Paula Liepold, Dakota County Water Resources Office,
Western Service Center, 14955 Galaxie Ave., Apple Valley, MN 55124

Questions? contact by phone: 952-891-7117 or email: paula.liepold@co.dakota.mn.us
